

The Response/Recovery continuum in Plant Health Emergencies

The role of CPHST in response and recovery

Russ Bulluck
National Science Program Leader (NSPL)
United States Department of Agriculture (USDA)
Animal Plant Health Inspection Service (APHIS)
Plant Protection and Quarantine (PPQ)
Center for Plant Health Science and Technology (CPHST)

The Response and Recovery Continuum

- Initial Detection
- Confirmation
- Incident Command System
- Assessment
- Eradication/management
- Program (Emergency or Domestic)
- Technology Transfer
- Recovery

Legislative Authority for Plant Pest Emergency Response is USDA-APHIS-PPQ as delegated by Secretary of Agriculture

Sec. of Ag Delegated Authority under Plant Protection Act of 2000

New Pest Response Guidelines

- Insect and Pathogens
- Set up before pest (hopefully)
- Generic NPRG's
- Specific NPRG's

Thank You!
