### New Third Edition of Best-Selling Wheat Compendium

St. Paul, Minn. (September 17, 2010) — *Compendium of Wheat Diseases and Pests, Third Edition* is completely updated since the previous edition published in 1987. Twenty years of advances and new discoveries about wheat diseases are delivered in this new edition, making it the largest book ever in the APS PRESS Compendium of Plant Disease Series.

More than 70 contributing plant pathologists and entomologists, all experts in their fields, have contributed to this authoritative compendium. A new section on major insect and mite pests of wheat has been added to make this a truly comprehensive reference. This new edition incorporates 50% more images integrated with the corresponding descriptions of disease symptoms, causes, life cycles, and control practices.

*Compendium of Wheat Diseases and Pests, Third Edition* is an integral resource for anyone responsible for helping to ensure a healthy, productive wheat crop, including growers, crop consultants, and agricultural scientists from every discipline.

This book may be purchased for \$89 plus S&H (USD) from The American Phytopathological Society. To order this book go to the APS PRESS online store at [www.shopapspress.org](http://www.shopapspress.org) or call toll-free 1.800.328.7560 USA/Canada or +1.651.454.7250 elsewhere.

*Compendium of Wheat Diseases and Pests, Third Edition* includes the following sections: Introduction, Diseases Caused by Bacteria, Diseases Caused by Fungi and Fungus-Like Organisms, Diseases Caused by Nematodes, Diseases Caused by Viruses and Viruslike Agents, Damage Caused by Insects and Mites, and Other Pests and Disorders.

©2010 APS PRESS; 8.5" x 11" softcover; 171 pages; 269 images; 2 pounds; ISBN 978-89054-385-6; Item No. 43856

NOTE: Digital artwork of the book's cover is available by contacting Ashley Armstrong [aarmstrong@scisoc.org](mailto:aarmstrong@scisoc.org). Please specify if the artwork will be used for print or electronic media.
