GENERAL PUBLICATION POLICIES

At least one author must be a member of The American Phytopathological Society, except that any subscribing institution outside the United States or Canada may have published, by a staff member, one paper (in English) per volume. A letter of transmittal, signed by an official of the foreign institution, should accompany such manuscripts.

Submission of manuscripts: Submit all new manuscripts to The American Phytopathological Society, Editorial Office, 3340 Pilot Knob Road, St. Paul, Minn. 55121. Do not submit new manuscripts to the Editor-in-Chief. Submission implies nonsubmission elsewhere and (if accepted) no publication elsewhere in the same form without consent.

Subject matter should fall into the following categories: 1) Original research on some phase of plant disease. 2) Review papers developing a new concept, hypothesis, theory, or other integration of plant pathology. 3) Phytopathological Notes: These are accounts of techniques, original research, or phytopathological history of general importance, but sufficiently brief (1-4 typed pages) as not to exceed published pages. 4) Letters to the Editor: These may explain, amplify, or otherwise comment upon research published in the journal or elsewhere. Letters to the editor are reviewed in the same manner as regular contributions, and the Editorial Board reserves the right to reject or to publish letters of rebuttal when appropriate.

Page charge: A charge of \$35 per published page will apply to all manuscripts submitted by authors except obituaries and those submitted in response to invitation by the Society after March 1, 1973.

Separates: No free copies supplied. Reprints will be available at a nominal cost; quotation will be sent with proof.

For style details, follow: Author's Guide for Manuscript Preparation, *Phytopathology* 62:1-4, 1972, and Style Manual for Biological Journals (latest edition). Amer. Inst. Biol. Sci., Washington, D.C. Authors are urged to have one or more colleagues read the manuscript *critically* prior to submission.

Use of material in *Phytopathology*: *Phytopathology* is not copyrighted, but those who wish to borrow illustrations or data appearing in *Phytopathology* for use in other publications should obtain the permission of the author of the paper, and provide a line crediting *Phytopathology* as the source of the material.
