

You Can Change the World

Are **you** passionate about environmental issues?

Do **you** want to make the world better for future generations?

Are **you** looking for a fulfilling career where **you** can make a difference?

Career opportunities are growing in the field of plant pathology—the scientific study of plant diseases.

Plant pathologists work across the globe to keep plants healthy and are employed at

- state and federal agencies (USDA, EPA)
- plant protection companies (chemical and biocontrol)
- colleges and universities (research, teaching, and extension)
- seed, tissue culture, and plant production companies
- nurseries (plants for ornamental use and ecosystem restoration)
- forest management companies and agencies
- crop and food biosecurity agencies (USDA-APHIS, FDA)
- international institutions
- botanical gardens and arboreta
- public policy organizations
- lawn and landscape maintenance firms
- environmental, agricultural, and patent law firms
