A quick overview on how to access the different model representations in STELLA Architect

To access the user-friendly Interface Window and explore the model structure and behavior

- Click on the “Open Interface Window” icon on the top right in the toolbar
- Click on the menu of the “Open Interface Window” icon and select “Present Fullscreen” or “Present Windowed”
- Press the “Escape” key on the keyboard to exit from the interface mode.

To access the Map View and to look at the model structure

- When in the Interface Window, click on the icon to open the Model Window
- The toolbar indicates that you are on the “Map view” mode

To access the model view and to look at the model structure and equations

- When in the Model Window, click on the icon to access to the Model Window, where you can see the model flowchart

To access the model equations

- When in the Model Window, click on “Model” in the menu bar, and select “Equation viewer”
