DEAR COLLEAGUES:

The National Center for Animal and Plant Health (CENSA) and the Latin American Phytopathological Association (ALF) are pleased to invite you to participate in the 3rd International Seminar on Animal and Plant Health (SISA 2019) and the 20th Congress of the Latin American Phytopathological Association, to be held in Varadero, Cuba, May 6-10, 2019, with the major theme “The Agricultural Sciences for One Health”. This third edition will be specially dedicated to commemorate the 50th Anniversary of CENSA’s foundation.

Within the frame of the Event, researchers, professors, specialists, students, decision-makers, entrepreneurs, and producers from different sectors and countries will debate the strategies and results of the intersectoral and multidisciplinary collaboration work in confronting those problems that affect health of plants, animals, people, and the ecosystem from the communities to scales of greater intervention.

ORGANIZING COMMITTEE

Honorary Committee
Dr. C. José Ramón Saborido Loidí,
Minister of Higher Education
Dr. C. Luis Velázquez Pérez
President of the Academy of Science of Cuba
Dr. Cs. Ondina León Díaz
Director of Science and Technique, Ministry of Higher Education

Executive Secretary
Dr. C. Evelyn Lobo Rivero

Scientific Secretaries
Dr. C. Carmen Laura Perera González
Dr. C. Oriela Pino Pérez

Local Committee of ALF
Dr. C. Ronald D. French-Monar
Dra. Cs. Yamila Martínez Zubiaur

Professional Event Organizer
Ing. Caridad Sagó Rivera
MSc. Silvia Hernández Delgado

OFFICIAL LANGUAGES

The languages for presenting papers will be Spanish and English. Simultaneous language interpretation will be available in the plenary sessions.

TOPICS

SISA 2019 and the 20th Congress of the Latin American Phytopathological Association will be a great opportunity for academic, scientific and technical exchange through presentations and discussions of the latest information on:

- Diagnosis and surveillance of diseases and pests in the agricultural sector
- Pest management / disease prevention and control in plant and animal health
- Food safety and innocuity with a productive food chain approach
- Disaster risk reduction and management in the agricultural sector

In these topics, will be accepted contributions related to:

- Diagnosis and epidemiology • Biodiversity • Transboundary, emerging and re-emerging pests and diseases • Invasive species • Agricultural simulation modeling • Intersectoral collaboration for prevention and control of zoonoses • Antimicrobial resistance • Immunity and vaccines • Drug design • Development and application of bio-pesticides • Natural products • Management of ecosystems • Characterization of multitrophic interactions • Functional foods, probiotics, and prebiotics • Microorganisms and food quality • Food safety and innocuity • The dairy sector and the sustainability challenges • Risk analysis • Hazard, vulnerability and disaster risk • Resilience to disasters • Impact and mitigation of climate change • Quality Management Systems and Biosafety • Plant and animal health, economy, and social development • Internationalization. Knowledge negotiation. Technological innovation • Continuing professional education and technical training.

SIMULTANEOUS EVENTS

During the Event, meetings, workshops, symposia, magister lectures, round tables, technical visits, and other encounters will be simultaneously held:

- 58th Annual Meeting of the American Phytopathological Society - Caribbean Division (APS-CD)
- 14th CaribVet Steering Committee Meeting
- Meeting of Heads of Veterinary Services of CARICOM
- 4th Workshop One Health
- 3rd Workshop “The agricultural sector in the coping of disasters and climate change”
- Symposium “Therapy with Pulmonary Surfactant: Surfacto Meet”

GUIDELINES FOR SUBMISSION OF ABSTRACTS

Dear participant:

In order for your summary to be quickly accepted and processed, we would appreciate your attention to the following instructions:

The abstracts will consist of a maximum of 300 words (including title), typed at a single space, in Times New Roman font, size 10, in Microsoft Word or another compatible with it. Everything justified.

Title of the paper: in bold capitals, in Spanish or English, as appropriate (its translation in parenthesis, standard letter, case sensitive. Provide the full names of the authors and their email addresses. If two surnames, merge them with a hyphen. Underline the name of the author who will attend the Event.

DEAR COLLEAGUES:

The Agricultural Sciences for One Health (SISA 2019) and the 20th Congress of the Latin American Phytopathological Association (ALF) are pleased to invite you to participate in the SISA 2019 and the 20th Congress of the Latin American Phytopathological Association, to be held in Havana, Cuba, from February 24 to 28, 2019.

Plant and animal health

• Pest management / disease prevention and control in scales of greater intervention.
• Diagnosis and surveillance of diseases and pests in the chain approach.
• Risk analysis, Resilience to disasters and climate change.
• Drug design, Antimicrobial resistance, Biodiversity.
• Microorganisms and cides, Drug resistance, Food safety and innocuity with a productive food chain approach.
• Characterization of multitrophic interactions, Agricultural simulation modeling.
• Impact and mitigation of climate change, Disease and zoonotic chain approach.
• Antimicrobial resistance.
• Quality Management of food, Internationalization. The dairy sector.
• Food safety and innocuity with a productive food chain approach.
• Food safety and innocuity with a productive food chain approach.

In these topics, will be accepted contributions on:
• Intersectoral collaboration for prevention and control of zoonotic diseases.
• Biodiversity, emerging and re-emerging pests and diseases compatible with it. Everything justified.
• Confronting pandemics, emerging and re-emerging pests and diseases compatible with it. Everything justified.

SIMULTANEOUS EVENTS
• 3rd Workshop “The agricultural sector in the coping of disasters and climate change”
• 4th Workshop One Health
• Meeting of Heads of Veterinary Services of CARICOM
• 59th Annual Meeting of the American Phytopathological Society and the 20th Congress of the Latin American Phytopathological Association

OFFICIAL LANGUAGES
The languages for presenting papers will be Spanish and English. Simultaneous language interpretation will be available in the plenary sessions.

The abstracts will consist of a maximum of 300 words standard letter, case sensitive. Provide the full names of the authors and their email addresses. If two surnames, the author who will attend the Event.

The Abstract must be informative, containing: Objectives, Materials and Methods, Results and Conclusions. No subtitles (eg. INTRODUCTION, etc.), or References.

Each poster display will be 120 cm tall x 90 cm wide mounted vertically.

Accommodation:
The Organizing Committee will offer accommodation packages through the Travel Agency Havanatur S.A, for which you can contact:
Ing. Caridad Sagó Rivera
Main Specialist
Events and Incentives
Havanatur T&T Havana Branch
Email: sago@havanatur.cu
Tel: (537) 201-9780

We invite you to reserve a space in your agendas and participate in the SISA 2019 and the 20th Congress of the Latin American Phytopathological Association. It will be very pleasant to have you in our Event.
