Unique Challenges to Effective Engagement in Voluntary Organizations

• Episodic engagement
• Accountability
• Time, input, outcome expectations
• Outcome or reward expectations.
In a setting focused on collaboration with colleagues, where we value everyone’s ideas (and all ideas are essentially good ideas), how do we focus on those actions that will deliver high-impact outcomes (and not upset those invested in ideas that will diffuse attention and resources by doing too much)?
These Unique Challenges Require Us to:

- **Listen**
  - Input / brainstorm

- **Prioritize**
  - Activities that deliver high impact and help APS achieve the strategic goals

- **Act**
  - Focus on High Impact and urgent actions

- **Evaluate**
  - Measure progress toward outcomes
Prioritizing based upon Impact and Urgency

- **Impact** - the capacity to deliver significant and scalable change to many.

- **Urgency** – there is an immediate need, opportunity, or action is a first step to additional opportunities.

After a brainstorming discussion, discuss the following:

Which ideas have the capacity to deliver the most significant impact? (identify a few or rank)

Which ideas are the most urgent? (Identify as Short term, medium term, longer term)
Measuring the Progress

The leadership uses a variety of sources to measure progress toward the goals:

- Indicators of progress toward the goals (metrics).
- Reputation and image.
- Satisfactory movement toward objectives.
- Staff and Committee reports on accomplishment of strategies (activities).
Discussion

- What are the implications of implementing this method of prioritizing?
- Questions / comments / observations?
A Framework for the first discussion with your volunteer group.

- What is our specific charge (task we are asked to accomplish on behalf of APS)?
- Which APS goal/objective are we helping to achieve?
- Who are the key stakeholders impacted by our work?
- What do we anticipate will be different for them when we are successful? 
  Or
- What outcomes are we committed to accomplishing on their behalf?
- What are the necessary steps we must take to deliver that success and when? How will we make that happen?
Identifying your Next Leader

- Recognize the qualities a person possesses that allow them to step into the role. *Not step-up but step-in.*

- Observe who:
  - Understands our common sense of purpose or vision?
  - Engages and motivates others
  - Understands and Reinforces an adaptive and agile structure?
  - Gains the trust of others through self-awareness and candor?
  - Positions others to lead when appropriate?
  - Gets results?
