On page 1169, in the article entitled "Models for the Spread of Disease: Model Description" by K. P. Minogue and W. E. Fry, the first sentence of the last paragraph in the left column should have read:

The behavior of the model is governed by a set of five parameters: $\alpha, p, i, a,$ and K.

On page 1169, equation 6 should have read:

$\sigma^2 = 2(1-a)/a^2.$

On page 1172, equation 13 should have read:

$dy(s, t)/dt =$
$M[1-y(s, t)] \Sigma_{x=-\infty}^{\infty} f(x)[y(s - x, t - p) - y(s - x, t - p - i)].$

On page 1173, the title for the article by K. P. Minogue and W. E. Fry should have read:

Models for the Spread of Disease: Some Experimental Results
