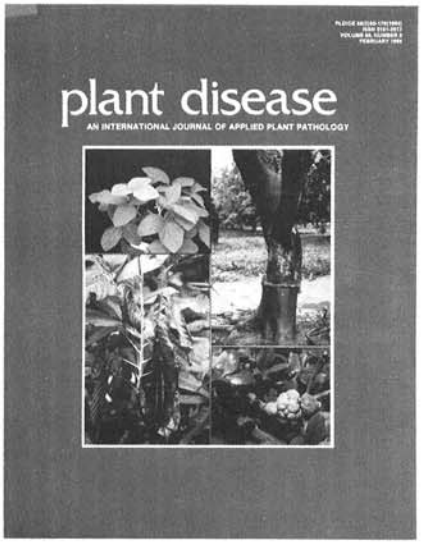
plant disease

AN INTERNATIONAL JOURNAL OF APPLIED PLANT PATHOLOGY

An Official Journal of The American Phytopathological Society

February 1984 **Volume 68, Number 2**



COVER

(*Clockwise from upper right*): Canker on grapefruit tree caused by undetermined species of *Phytophthora* (courtesy Fred Crowe); euonymus crown gall (*Agrobacterium tumefaciens*) (courtesy M. C. Shurtleff); Corticium dieback of cocoa (*C. salmonicolor*) (courtesy Robert H. Fulton); soybean calic mosaic disease caused by alfalfa mosaic virus (courtesy Alvaro M. R. Almeida).

EDITORIAL

87 Implementation of Predictive Disease Control. *A. L. Jones and P. D. Fisher*

FOCUS

88 The Latest in Plant Pathology and Nematology

FEATURES

89 Coffee Rust in the Western Hemisphere. *Eugenio Schieber and George A. Zentmyer*

168 Development of Immunity to Bacterial Blight of Cotton and Its Implications for Other Diseases. *L. A. Brinkerhoff, Laval M. Verhalen, William M. Johnson, Margaret Essenberg, and Paul E. Richardson*

RESEARCH

95 Pathogenic Specialization in *Uromyces phaseoli* in the United States and Rust Resistance in Beans. *J. R. Stavely*

100 Resistance to Benzimidazole Fungicides of *Penicillium italicum* and *P. digitatum* Isolated from Packinghouses and Orchards in Egypt. *M. A. El-Goorani, H. M. El-Kasheir, M. T. Kabeel, and Alia A. Shoeib*

103 Spread and Damage of Western X-disease of Chokecherry in Eastern Nebraska Plantings. *Glenn W. Peterson*

104 Assessment of *Streptomyces* spp. from Elms for Biological Control of Dutch Elm Disease. *J. G. O'Brien, R. A. Blanchette, and J. B. Sutherland*

107 Controlled Droplet Applicators for Inoculation with Plant Pathogens. *J. B. Perry and P. H. Williams*

109 Resistance in Faba Bean (*Vicia faba*) to Bean Yellow Mosaic Virus. *I. P. S. Gadh and C. C. Bernier*

112 Control of Stripe Rust and Leaf Rust of Wheat with Seed Treatments and Effects of Treatments on the Host. *R. Rakotondradona and R. F. Line*

117 Disease Reaction of Diverse Sources of *Lycopersicon* to *Xanthomonas campestris* pv. *vesicatoria* Pepper Strain Race 2. *Vince F. Lawson and W. L. Summers*

120 Helminthosporium Spot Blotch of Switchgrass in Pennsylvania. *K. E. Zeiders*

PLANT DISEASE replaces *Plant Disease Reporter*, published by the United States Department of Agriculture from 1917 through 1979. Volume numbers of PLANT DISEASE are continuous with those of *Plant Disease Reporter*.

PLANT DISEASE (ISSN 0191-2917) is published monthly by The American Phytopathological Society, 3340 Pilot Knob Road, St. Paul, MN 55121. Subscription price: $50 individual and $100 company, library, or institution per year domestic; foreign postage $12 extra per year (including Canada and Mexico). Second-class postage paid at St. Paul, MN. USPS 522-750. **POSTMASTER: Send address changes to PLANT DISEASE, 3340 Pilot Knob Road, St. Paul, MN 55121.**

Single current numbers (within 60 days of publication): $8.50. Price of back volumes and separate numbers on request. Airmail rates for delivery outside North America quoted on request. Claims for copies lost in domestic mails must be received within 60 days of the date of issue, otherwise the replacement charge will be $8.50. Deliveries overseas are not guaranteed; foreign mailings are made at the subscriber's risk. No endorsement of any statements or claims made in advertisements is assumed by PLANT DISEASE or by The American Phytopathological Society. **Membership in The American Phytopathological Society:** Information concerning membership in The American Phytopathological Society and rates may be obtained from the business office of the Society. **Change of address:** Provide business office with current mailing label and forwarding address 6 weeks prior to change.

123 A Procedure to Identify Resistance to Wheat Soilborne Mosaic in Wheat Seedlings. *W. W. Bockus and C. L. Niblett*

125 Incidence of *Septoria nodorum* in Wheat Seed and Its Effects on Plant Growth and Grain Yield. *M. Babadoost and T. T. Hebert*

129 Fusarium Wilt in Watermelon Cultivars Grown in a 4-Year Monoculture. *D. L. Hopkins and G. W. Elmstrom*

131 Comparative Responses of Selected Cultivars of Four Annual Clover Species to *Sclerotinia trifoliorum* at Different Inoculum Levels in the Field. *R. G. Pratt and W. E. Knight*

134 Effects of Small-Scale Aerobic Composting on Survival of Some Fungal Plant Pathogens. *G. Y. Yuen and R. D. Raabe*

137 Cross-Resistance to Four Systemic Fungicides in Metalaxyl-Resistant Strains of *Phytophthora infestans* and *Pseudoperonospora cubensis*. *Yigal Cohen and Yair Samoucha*

139 Resistance to *Pseudomonas syringae* pv. *tomato* in Wild *Lycopersicon* Species. *Vince F. Lawson and W. L. Summers*

142 Blue Lupine as a Host for *Colletotrichum trifolii* from Alfalfa and for *C. fragariae* from Strawberry. *Ronald E. Welty*

145 Comparative Seedling Resistance of *Pinus elliottii* var. *elliottii* and *P. elliottii* var. *densa* to *Cronartium quercuum* f. sp. *fusiforme*. *Roger S. Webb, Robert L. Anderson, and Kenneth M. Portier*

148 Ecological Characteristics of the Lentil Strain of Pea Seedborne Mosaic Virus. *J. J. Goodell and R. O. Hampton*

151 Distribution of Plant-Parasitic Nematodes in Putting Green Turfgrass in Washington. *G. A. Chastagner and F. D. McElroy*

154 Effects of Triphenylphosphite on Bean Rust Development. *G. Rusuku, P. Lepoivre, M. Meulemans, and J. Semal*

156 Effects of Soil Solarization on *Macrophomina phaseolina* and *Sclerotium rolfsii*. *J. D. Mihail and S. M. Alcorn*

159 Erratum

NEW DISEASES AND EPIDEMICS

160 *Alternaria alternata*: A New Pathogen on Stored Potatoes. *S. Droby, D. Prusky, A. Dinoor, and Rivka Barkai-Golan*

162 Beet Western Yellows Virus in Israel. *Shlomo Marco*

163 Shoot Blight of Pistachio Caused by *Botrytis cinerea*. *H. A. Bolkan, J. M. Ogawa, and H. R. Teranishi*

166 *Meloidogyne incognita* on Society Garlic and Its Control. *R. McSorley, R. T. McMillan, Jr., and J. L. Parrado*

DISEASE NOTES

167 Brief Reports of Significant Observations

FUNGICIDE AND NEMATICIDE UPDATE

174 New Fungicides for Small Fruit Disease Control. *Michael A. Ellis*
