

ERRATUM/Volume 72, Number 9, 1988

In the article "Laboratory Detection of Viruses and Mycoplasma-like Organisms in Strawberry" by Richard H. Converse et al, the second sentence in the paragraph labeled "Strawberry latent C virus (SLCV)" (page 746) should read: "Leaflet grafts from two Japanese isolates of SLCV induced symptoms typical of SLCV on the *F. vesca* indicator UC-5 but not on UC-4, which is reported (11) in the United States to be insensitive to this virus."
